

# **GMS™**

**LOCK CYLINDERS**

**A PERFECT FIT**

## ABOUT GMS

Commitment to quality, commitment to value, and commitment to our customers' needs are the core values at GMS. Since inception our business and reputation has been built on making our products the very best we can. With unwavering attention to detail and to meeting the OEM specification of the products that we manufacture we strive to make our products "The Perfect Fit" for all applications where our customers use our cylinders.

Our mission as a company is to be the preferred brand and market leader of lock cylinders and related products to after-market distributors and end users by providing high quality, value priced products with reliable and consistent service while bringing to the market new and innovative product solutions. In doing so we strive to operate in a respectful, honest and forthright manner with customers, suppliers, employees and other stakeholders in the company.

We continue to expand our product offering with needed alternatives to OEM products to fill customer needs. Our continued expansion of small format and large format interchangeable core products provide our customers with high quality alternatives to high priced OEM products.

Our pledge is to provide our customers the best product, the best value and the best customer service that we can so that we can be "The Perfect Fit" supplier to you.

# GENERAL INFORMATION

## Numbering System

The GMS numbering system is shown in each section of the catalog. The necessary information required to ensure that you receive the right product each and every time is shown. In creating our numbering system we have attempted to make the numbering system as descriptive and intuitive as possible. All the information such as product type, length, keyway, finish, cam and keying requirements can easily be built into the product number of the product you desire.

## Keying

GMS offers a wide array of keying options. Cylinders are usually stocked keyed alike in pairs. We also offer keyed random and zero bitted cylinders in a wide array of products. Please note that our zero bitted cylinders are actually cut to a 1 bit or 2 bit depending on keyway. The cylinders are packaged with uncut keys to be used when pinning the cylinder. GMS also offers Master Keying, Grand Master Keying, Construction Keying and numerous other options. Please contact us for details.

## Specifications

GMS cylinders are designed, engineered and manufactured to OEM specifications. This is something we do not compromise on. As a result you can have the utmost confidence that when keying into a system you will maintain the integrity of the system. Our cylinders will have the exact depth and spacing as originals at a fraction of the cost.

## LARGE FORMAT IC CORE

- ▶ Solid brass construction
- ▶ Replaces Schlage large format IC core
- ▶ Available in 6-pin only
- ▶ Two finishes: satin chrome and satin brass
- ▶ 6 popular keyways

Model #	Type
LFIC	Large format interchangeable core

**LFIC CORE**

LFIC	Schlage C Schlage E Schlage F Schlage 123 Schlage 145 Schlage C-K	Satin Brass Satin Chrome	Zero-Bitted Special Keying
LFIC	SC SCE SCF G23* G45* SX	4 26D	OB KS

\* No key for G23 and G45 keyways.

## SMALL FORMAT MORTISE IC HOUSING

- ▶ Compatible with cores from Arrow, Best, Falcon and KSP
- ▶ Interchangeable cams provide flexibility
- ▶ Solid brass construction
- ▶ 8 popular cams available

Model #	Type
ICM	IC Mortise Housing, Straight
ICT	IC Mortise Housing, Tapered

See page 27 for cams.

YCM mortise housing uses Cam 1, see page 7.

## SMALL & LARGE RIM IC HOUSING

- ▶ ICR and ICXM is compatible with cores from Arrow, Best, Falcon and KSP
- ▶ ICSR is compatible with Schlage large format IC cores
- ▶ Furnished with collar, mounting plate & screws
- ▶ Tailpiece converts between horizontal & vertical positions
- ▶ Solid brass construction

Model #	Type
ICR	Best Small IC Rim Housing
ICSR	Schlage Large Rim Housing
ICXM	IC Mortise/Rim Housing, Straight

## STANDARD PADLOCK

- ▶ Solid brass body, non-key retaining
- ▶ Double ball bearing locking
- ▶ 19 keyways
- ▶ Hardened shackle
- ▶ 3 shackle sizes
- ▶ Can be ordered body only\*

Model #	Type
P175	1-3/4" wide body
P200	2" wide body

\* Accepts K001 cylinders

*Drawings on this page are not to scale.*
