KARCHER
DESIGN
GERMANY

KARCHER DESIGN – Contemporary door and window hardware with exclusive fixing technology

KARCHER DESIGN provides an extensive range of contemporary lever designs as well as window handles, door pulls, and accessories. The range is offered in a Satin Stainless Steel finish with select designs available in Polished Stainless Steel or a dual Polished/Satin finish. German engineering assures excellent functionality and years of worry-free service.

KARCHER DESIGN is based in southwestern Germany in the state of Baden-Wurttemberg which borders both France and Switzerland. The area has a long history of industrial design and manufacturing and is home to leading automotive companies Mercedes Benz, Porsche and Audi.

KARCHER DESIGN NA, located in Seattle, is a fully-owned subsidiary of the parent company. Its focus is to provide customer service and product distribution to the growing North American market. In choosing Seattle, Karcher found a home with a climate very much like that in Germany and a thriving high-tech community that will provide inspiration for future product innovation.
KARCHER DESIGN supports door and hardware showrooms, architects, and contractors. Our qualified customer service team assures a smooth and accurate ordering process as well as expert service after the sale. All products are kept in stock at high inventory levels. So whether your project is a single door, a sports stadium, or a high-rise condominium, delivery will be prompt and complete.

KARCHER DESIGN – The quality choice for the discerning customer.

CONTENTS

PRODUCT ADVANTAGES OF THE THREE PIECE ROSE SYSTEM

KARCHER
DESIGN
GERMANY

one side preassembled

casted mounting plate with precision threading

standard door thickness (1 1/4" - 2")

28° degree latch

stainless steel inner plate to hold lever and allows quick assembly

pin for privacy function (as option)

stainless steel threaded ring for a secure and save installation

Rhodos – TEPL 28

Finish:	oil rubbed bronze
Diameter of lever:	Ø 3/4" (19 mm)
Rose:	Ø 2 3/16" x 1/8" (55 x 3 mm)

Madeira – TEPL 45

Finish:	oil rubbed bronze
Diameter of lever:	Ø 3/4" x 1" (18,5 x 26 mm)
Rose:	Ø 2 3/16" x 1/8" (55 x 3 mm)

MAGNETIC LOCK for Plan Design lever sets

image: TEPL 28

version: latch (LA),
         privacy bolt (PB)
         dummy (DUM) *

This lock closes doors smoothly and silently without locking them. When the door is closed the magnet in the frame will pull out the latch. It can be reopened by pressing down the handle.

Since the latch never touches the door frame the lock for Plan Design sets has a longer duration than standard door locks. TEPL sets are available for all Karcher Design lever models.

All Karcher Design lever models are available on Plan Design roses.
