# DESIGNER PRO™

FACTORY CATALYZED PRE-CAT TOPCOAT & TINT-BASE

V14541X - CLEAR | W14641X - WHITE

[WWW.MLCAMPBELL.COM](http://WWW.MLCAMPBELL.COM)

**Designer Pro™ Factory Catalyzed Pre-Cat Topcoat White | Clear** are superior fine furniture quality, pre-catalyzed lacquer systems that have excellent build, are fast drying and HAPS-free. Designer Pro Pre-Cat Topcoats can be used as self-sealing systems, are easy-to-spray and have superior moisture resistance when compared to legacy furniture systems.

Designer Pro Factory Catalyzed Pre-Cat Topcoat White | Clear represent next-generation wood finishing technology and are specifically developed for the protection and beautification of furniture. These coatings exhibit a smooth and silky feel, optimal flow and leveling, good clarity and outstanding depth of color. They provide improved moisture, scratch and mar resistance over traditional nitrocellulose lacquer.

## Designer Pro Factory Catalyzed Pre-Cat Topcoats

**Fast dry-to-touch**  
(20 minutes or less)

**Consistent quality & performance**

**PFAS-/phthalate-free**

## ADVANTAGES FOR HIGH-SPEED/HIGH-OUTPUT SHOPS

- +** Fast dry-to-powder times — Won't clog abrasives
- +** Extend usable material and eliminate waste with 12-month shelf life
- +** Complete offering of Clear and White topcoats and corresponding sheen levels
- +** Factory catalyzed — No mixing required and ready to apply
