WASTE RECYCLING

Since 1980, looking to the future. About Vibo...

Founded in 1980 by Luisa Nardi and Franco Bonin, Vibo began as an Italian dream fueled by passion, craftsmanship, and a relentless drive for innovation. Proudly Made in Italy, the company has grown through continuous investment-insourcing and verticalizing key production processes, and ultimately opening a modern, state-of-the-art facility in 2024. With the second generation now leading alongside a dedicated team, Vibo has strengthened its position in international markets and unveiled a strategic plan for expansion across multiple market segments in the years ahead.

Today, Vibo continues to lead the charge through innovation, quality, and an unwavering commitment to its customers. By combining advanced engineering with authentic Italian manufacturing excellence, reliable service, and tailored solutions, the company stands not just as a producer of hardware system, but as a trusted partner. Vibo's focus remains clear: anticipate the needs of tomorrow, exceed expectations today, and deliver "Made in Italy" solutions that elevate the standards of the entire industry.

About Symbios...

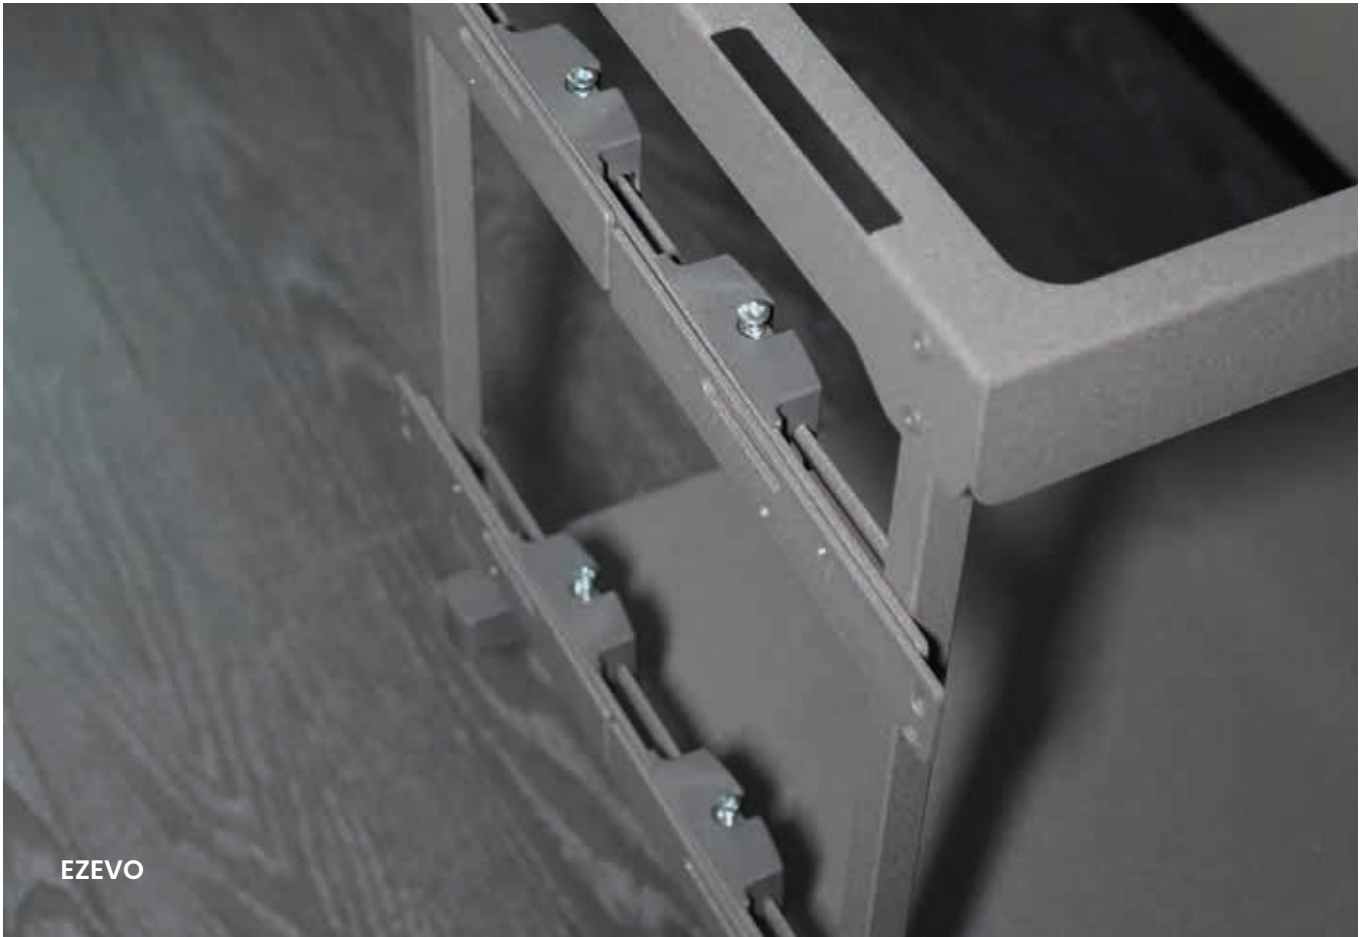

Symbios America, LLC is a 100% American-owned corporation based in Charlotte, North Carolina, dedicated exclusively to the wholesale distribution of Vibo products throughout North America. Supported by a knowledgeable, service-driven team, our mission is to provide reliable supply, technical expertise, and long-term value to our customers.

With headquarters in Charlotte and a satellite warehouse in Los Angeles, our bi-coastal infrastructure reduces transportation costs, shortens lead times, and ensures consistent product availability across the continent.

Our vision as the trusted partner of Vibo in North America is efficiently delivering reliable supply, strategic inventory availability, and customer -focused service that strengthens every link of the supply chain.

An optimized, fully integrated space that blends seamlessly into any kitchen environment. Smooth opening, soft-closing functionality, and heavy-duty, above-industry-standard slides deliver a perfect balance of performance and efficiency. Compatible with both face-frame and frameless cabinet construction, it offers a wide selection of custom-fitted, high-quality accessories to suit any organizational need.

WASTE RECYCLE PULLOUTS

EZGLOBE

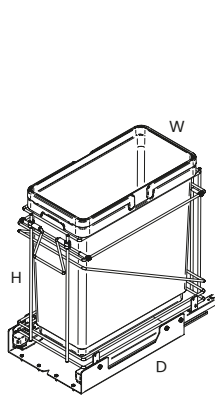

EZECO

EZEVO LIGNAE

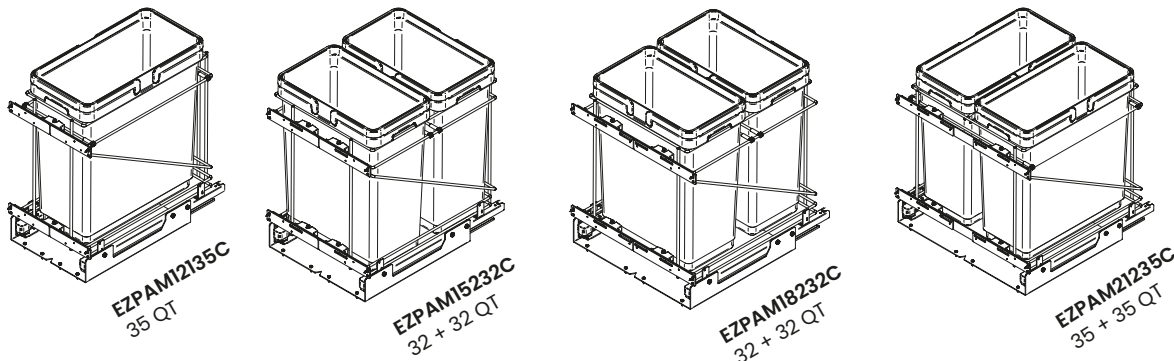

EZPAM

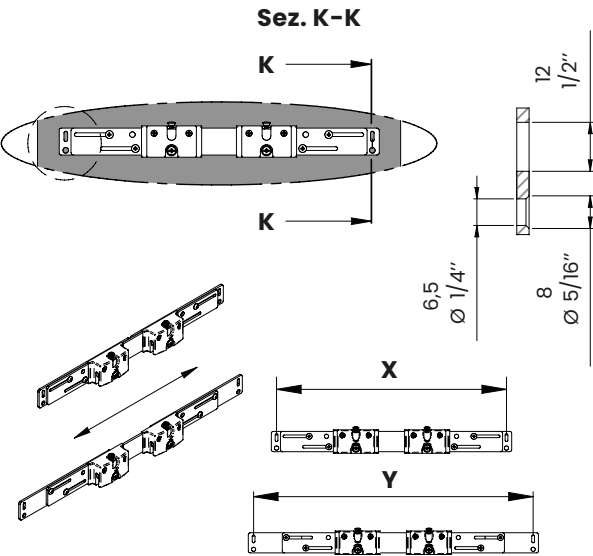

Waste recycle pull-outs with chrome-plated wire frame (C) and light grey finish (G) bins. Includes a 3D-adjustable door bracket kit and offers flexible installation for use with either hinged or swing doors. The waste recycling bin system features integrated handles to securely hold trash bags in place and allow for easy lifting and removal of the bins. Bottom-mounted for stability, the unit comes pre-mounted on the slides for fast, easy assembly.

Part number	W	D	H	Extension	Soft-closing	Load capacity	Bins capacity

EZECO

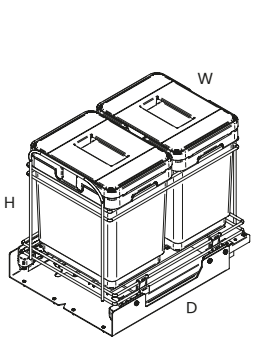

Waste recycle pull-outs with epoxy-coated metal frame in textured grey finish (VGM) and dark grey finish (GF) bins. Built-in 3D-adjustable door brackets provide precise alignment, while integrated bin handles securely hold trash bags in place and allow for easy lifting and removal. Bottom-mounted for added stability, the system comes pre-mounted on the slides for fast, effortless assembly. The frame and the bins are sold separately. The height in the table refers to the structure with guides only and excludes the bin height, which varies according to the selected configuration.

EZGLOBE

Waste recycle pull-outs with epoxy-coated metal frame in textured grey finish (VGM) and dark grey finish (GF) bins. Designed for full access of 15", 18", 21", and 24" base cabinets, this versatile waste system is available in four configurations: single 35 qt. bin, double 35 qt. bins, double 34 qt. bins, or double 34 qt. and double 11 qt. bins, all featuring dark grey bins with convenient handles. The powder-coated metal frame ensures durability, while full-extension, 110 lb-rated slides with 1-1/2" over-travel and soft-close functionality provide smooth, reliable operations. Mounting to both the cabinet door and side walls, the system includes pre-assembled door-mount brackets for easy installation, and a built-in metal lid keeps contents neatly concealed.
