

## Introducing the Revolutionary INOX™ Privacy Lock for Barn Doors

Barn doors are one of the fastest-growing, most popular features in interior design, yet architects, designers and builders all face the same challenge: the typical barn door can't assure any degree of privacy.

INOX™ introduces the solution: the innovative, patent-pending BD4000 Privacy Barn Door Lock.

You CAN have a beautiful barn door and still lock in solitude and privacy!

# BD4000

## Privacy Barn Door Lock And best of all

BUILT IN USA

Stocked in Sacramento, CA

Installed inside the door jamb—instead of the traditional method of putting the lock on the door itself—the bolt slides into the door's discrete strike. A variety of attractive thumb turns are available for both aesthetic appeal and functionality.
